

THERMOPLASTICS

SUSTAINABLE SOLUTIONS FOR OUR CUSTOMERS

WE OPEN THE WAY

COLAS THERMOPLASTICS

Colas Ltd operates throughout the UK supplying an extensive range of products to local markets.

With over 90 years in manufacturing within the bitumen emulsion industry, Colas is able to draw on a vast level of experience and knowledge, which is complimented by strong collaboration with third party suppliers enabling us to offer an extensive range of sustainable solutions for our customers.

As a result of our strong collaborations, the company has built up unrivalled expertise in its product range and application techniques and offer a full range of thermoplastic outdoor markings.

We co-operate and work closely with all of our customers to ensure we provide them with the best solution to meet their specific requirements.

As well as our conventional lines and sheets, we offer a wide range of applications tailored for the highway markets.

ANTI SKID SHEETS

Antiskid Sheets are skid resistant thermoplastic sheets, ideal for antiskid application on bus, cycle lanes and other high stress areas. With unique patented heat indicators the sheets are ideal for application straight onto a new reinstatement meaning only one 'open notice' is required. Colas recommend that Calcined bauxite should be applied on top as soon as the sheets are molten to produce a SRV >70.

REIMAGINING THE WAY TO POSSIBLE

Roads foster mobility, shape economies, create **SHARING**. They build links between communities and between people. We are imagining, building, maintaining and recycling, **CARING** for people and the environment. The people at Colas, preserve and grow our unique heritage, that everyone benefits from today and which we will pass onto future generations around the world with **DARING**. We design the roads of the future, and together, we face the challenges of tomorrow in an innovative sustainable way.

Colas opens the way to a world of possibilities.
