

COLAS PRODUCTS DATA SHEET

LEOCLEAN INDUSTRIAL

Leoclean Industrial is a heavy duty cleaner designed to remove bitumen and asphalt grease from all types of equipment used by Highways Contractors. It has been formulated so that when applied it will leave a non-slip coating that will help prevent material from adhering to the surface of the equipment used.

Leoclean Industrial is a cleaner and degreaser, formulated from derivatives of vegetable oils with a flash point in excess of 90°C.

Leoclean Industrial can replace red diesel as well as chlorinated and paraffin based solvents in most applications.

WHERE TO USE?

Leoclean Industrial is suitable for most surfaces. It is completely safe on all metals, most composite plastics, ceramics, most acrylics, concretes, brick, stone, glass, wood and painted surfaces. It will also not affect any cured resins or vulcanized rubber. Care must be taken on porous surfaces as **Leoclean Industrial** will tend to allow absorption of the contaminant into the surface.

APPLICATION

Leoclean Industrial should be applied sparingly onto the affected area and allowed to soak into the contaminant. The softened or dissolved residue should then be removed with absorbent material. Repeat the process if necessary. Remove softened residue off porous surfaces as soon as possible to reduce the risk of any absorption and wash with soapy water. **Leoclean Industrial** has a slower evaporation rate than chlorinated solvent. Where production processes require speed, drying can be enhanced by heat and/or hot air (but not naked flames) and/or vacuum.

COVERAGE

The concentrated nature of **Leoclean Industrial** means that it should be used sparingly.

PACKAGING

Leoclean Industrial is available in 5 and 25 litre plastic containers as well as 200 litre drums.

STORAGE

Store in original container wherever possible. Protect from direct sunlight. Do not spray on naked flame or any incandescent material. Keep out of reach of children.

STANDARDS

Leoclean Industrial is manufactured on a purpose-built plant to an ISO 9001 quality system which covers all Colas manufactured products.

SAFETY

For full safety information, please request the **Leoclean Standard/Industrial** Safety Data Sheet 75 using the contact information below.
